

Triangulated 4-Bar Suspensions

Tri 4-Bar Rear Clip

For the growing numbers of street rodders who appreciate good handling, Art Morrison has developed the triangulated 4-bar rear suspension, now used in the Max G and Tri-5 chassis. The crossmember has passages for the exhaust and for the driveshaft for a low center of gravity and improved handling. The suspension setup controls both housing "twist" and lateral movement. The "big tube" 1-3/8" diameter bars feature Morrison poly-bushed stainless steel rod ends. The rear sway-bar, coil-over shocks, and 9" housing complete the package.

2"x4" Welded Rear Clip w/Brkts w/Exh.....	\$1,635.00

Tri 4-Bar Kit

There's no doubt that this is the most versatile setup for both street rods and GT-type cars as it provides excellent rear end control in both acceleration and handling situations due to stabilizing both housing rotation and side loading. It's been proven highly effective in tests conducted by leading automotive enthusiast publications. The kit contains four bars with AME polyurethane-bushed stainless steel rod ends, plus all required mounting brackets and hardware. Kit also available with a sway-bar to provide extra control over body roll.

Tri 4-Bar Kit Without Sway-Bar	\$495.00
